- The remote control can be connected to multiple receivers
- Powered by a CR2032 battery
- Has a LED indicator light
- Comes with a magnetic mount that can be mounted on a wall

36.00 mm
11.00 mm
139.00 mm
53.50 mm

CR2032 battery

Attention: Please remove the protective film on the battery before first use

Magnetic mount

Options for mounting the remote control with the handle:
1. Glue the remote control holder to any surface using double-sided mounting tape;
2. Attach the holder to the wall with two screws;
3.(Without using the handle) attach the remote control to a metal surface, thanks to the magnet in the remote control.

Pairing the LED remote control with the On/Off button

Connect:
Disconnect the power, then reconnect it, immediately press 3 times the On/Off button on the remote control quickly.
3 flashes of the LED on the remote control indicates successful pairing of the remote control with the receiver.

Disconnect:
Disconnect the power supply, then reconnect the power supply, Immediately press 5 times the On/Off button on the remote control quickly.
5 flashes of the LED on the remote control means successful disconnection with the receiver.

Safety information

1. Before pairing/installation/assembly, please read the instructions.
2.When installing the battery, pay attention to the anode and cathode of the batteries. When the remote control does not respond, or its range has decreased, replace the battery.
3.If the receiver does not respond, re-pair the the remote control.
4. Avoid dropping the remote control, as it may be damaged.
5. Use the remote control only indoors. Keep it in a dry and safe place.
